### DETAILED ACTION

1. This office action is in response to communication filed on Sept. 23, 2005.
2. Claims 41-95 have been canceled.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-16, 19-20, 23, 26-32, and 37-40 are rejected under 35 U.S.C. 102(e) as being anticipated by Vialen (6,810,258).

Regarding claim 1, 29-32, 37-38, Vialen discloses a contention resolution method in channel allocation, comprising the following steps: detecting when a first network identification code associated with a first mobile device has changed (see col.10, lines 9-18, fig.4 and its description); sending a first message via a wireless network to a first service gateway for forwarding by the service gateway to a second mobile station wherein the first message comprises the first network identification code (see col.8, line 56-col.9, line 4, fig.4 and its description); receiving from a second service gateway via the wireless network a second forwarded message that was sent by the second mobile station wherein the second message comprises a second network identification code that is associated with the second mobile station (see col.8, line 56-col.9, line 62, fig.4

Art Unit: 2688

and its description); storing the second network identification code (see col.9, line 63-col.10, line 8, fig.4 and its description); and requesting a communication link between the first mobile station and the second mobile station via the wireless network using the second network identification code wherein the communication link does not traverse the first or second service gateway (see col.10, line 9- col.11, line 7, fig.4 and its description).

Regarding claim 2, Vialen further discloses first service gateway is the same physical device as the second service gateway (see col.8, line 61-col.9, line 4, fig.1, fig.4 and its description).

Regarding claims 5-6, Vialen further discloses comprise a short messaging service center (SMSC), short messaging service (SMS) messages (see col.7, lines 54-67, fig.1, fig.4, and its description).

Regarding claims 3-4, 7-16, 19-20, 23, 26-28, and 39-40 Vialen further discloses comprise the first service gateway and the second service gateway comprise an Internet gateway (see col.5, lines 46-67, fig.1, fig.4, and its description).

***Allowable Subject Matter***

5. Claims 17-18, 21-22, 24-25 and 33-36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
